

HUMAN SOURCED BLOOD PRODUCT TESTING WAIVER

Dear Customer,

To obtain human blood products without, or prior to the completion of, any viral screening, please confirm by signing at the bottom of the page. A sample list of tests is shown below; if you are unsure which tests will be performed on your product, speak with your customer service representative and they will be able to elaborate.

- Hepatitis B Surface Antigen
- HBV NAT
- HIV 1/2 Antibody
- HIV NAT
- HCV Antibody
- HCV NAT
- STS / RPR
- West Nile Virus NAT
- HTLV I/II Negative (Leukocyte products only)
- Zika Virus NAT

The testing for these agents are expected to be available within 3 days AFTER the date of the collection.

WARNING: All human source biological material should be handled as potentially infectious at all times. Exercise Standard/Universal precautions when handling this material.

I authorize Lampire Biological Laboratories to ship human sourced blood products to my facility prior to the completion of FDA-mandated viral testing. I understand that despite existing controls there is a potential for product test results to indicate reactivity or positivity. I understand my request to receive human sourced blood products before completion of testing relieves Lampire from financial responsibility in the event of a reactive or positive test result. I request that test results be forwarded to the contact designated below.
