

LAMPIRE IACUC Questionnaire Form - Monoclonal Project

1. General Information

Company /Institution:	Project Name / Number:
Investigator Name:	PO#
Contact Name:	Phone:
E-mail:	Fax:

2. Species and Number of Animals

<input type="checkbox"/> Mice	<input type="checkbox"/> Rat(s)	<input type="checkbox"/> Other: _____
Qty: _____	Qty: _____	Qty: _____

3. IACUC (Institutional Animal Care and Use Committee) Requirements

Lampire Biological Laboratories, Inc., in compliance with federal regulations, presents each animal-use project to IACUC (Institutional Animal Care and Use Committee) for approval prior to project initiation. Criteria for acceptance of a project are established in 9CFR, Chapter 1: Animal and Plant Health Inspection Service, USDA, Subchapter A- Animal Welfare.

To expedite initiation of your project, please complete the following questions and assurances as thoroughly as possible. If your company or institution is a USDA-registered facility with an IACUC of its own, Lampire may accept an approved Animal-Use Proposal from that committee. If any questions arise during our IACUC review of your project, you may be contacted for clarification.

Please briefly state your rationale for the appropriateness of the species of animals used for this activity:
(i.e., "The development of the immortal hybridoma cell line requires the use of animals; no commonly accepted non-animal alternatives are available. The use of Mice specifically is the most widely accepted method of developing monoclonal antibodies due to their immunologic response")

Please briefly state your rationale for the number of animals used for this activity:
(i.e., "One animal will yield an adequate volume of antiserum for determining an antibody response." or "Three animals will yield an adequate volume of antiserum for testing purposes." or "Ten animals will yield the necessary volume of antiserum required for manufacturing purposes")

Your signature below indicates this project does not unnecessarily duplicate previous experiments or project, the number of animals was minimized and alternatives to animal use were considered.

Print Name Client Signature Date

4. Project Approval (LAMPIRE use only)

Requested Need by Date of Technical Review (typically 2 business days): Date: _____

Technical Review By: _____ Date: _____

Technical Representative
