

LET'S GET TO WORK!

"Our LAMPIRE team is standing by to help you get back to work.

Customization is our specialty and our clients' needs are our first priority."

Sandra Cardona, Scientist

Strong Today, Stronger Tomorrow, Strongest Together

High-Quality Products | Competitive Pricing | Technical Expertise | Prompt Delivery | Client Focused Customer Service

LAMPIRE Biological Laboratories has served the life science industry with custom antibodies and biological products for over 43 years. By working our Strongest Together, we have risen to meet the unprecedented challenges and opportunities the COVID-19 pandemic has presented to our scientific community. We appreciate you continuing to choose LAMPIRE as your scientific partner.

It has been our pleasure to help you meet your custom project and/or biological raw material needs. We hope you have received the top-notch communication and technical support you have come to expect from our LAMPIRE sales, project management, service and technical support team members. As the nation and the world reopens the coming weeks and months, we hope you will turn to LAMPIRE for all your biological raw material and antibody related needs.

Thank you for choosing LAMPIRE. Please accept this special customer appreciation offer **#STRONGESTTOGETHER** for 15% off your next standard catalog order.* We look forward to our partnership with you for many years to come.

Contact Customer Service at 215-795-2838 or by email at lampire@lampire.com.

BIOLOGICAL PRODUCTS

Animal Blood, Tissue & Abattoir | Human Material & Blood

Whatever species your project requires, Lampire has them! Lampire Biological whole blood, serum, plasma donor and abattoir products are both high in quality and competitively priced. With access to over 20 unique species and over 5,000 on-site donor animals, Lampire is positioned to fill your donor or abattoir, standard catalog or custom biological raw material needs both timely and efficiently, regardless of volume.

PURIFIED PROTEINS & REAGENTS

Normal & Secondary Antibodies | BSA | Reagents

LAMPIRE offers purified IgGs, with or without azide, and secondary antibodies designed for use in lateral-flow, ELISA, and other immunoassays. Our Bovine Serum Albumin (BSA) has the highest level of consistency, traceability and quality, as well as being protease-free, IgG-free and virtually free of contaminants that can result in background interference. Our products can be shipped to the EU and around the world.

CUSTOM ANTIBODIES

Polyclonal | Monoclonal | Conjugation & Antibody Services

LAMPIRE specializes in polyclonal antibody services from antigen design and optimization to antibody purification. Each product begins with a review by our expert staff that will assist with species selection, antigen design, and immunization protocol. LAMPIRE also offers a comprehensive monoclonal antibody service from research to bulk scale production, hybridoma development, cell line optimization, serum free antibody production, supernatant concentration, antibody purification and characterization, cell bank production, testing and storage.

SPECIALTY PRODUCTS

Cell Culture & Viral Transport Media | OMNI C3® Cell Culture Bags

LAMPIRE offers custom tissue culture media, viral transport media, reagents, supplements and mouse embryo culture media to the Research Use Only (RUO) market. Have LAMPIRE work with you on your own proprietary formula to achieve the greatest results in your research efforts. The OMNI C3® bag is a simple-to-use product for the culture, harvest and storage of cells.
