

## **Price Change Notification**

by LAMPIRE Staff

LAMPIRE Biological Laboratories has served the life science industry with custom antibodies and biological products for over 44 years. By working closely with our customers, we have risen to meet the unprecedented, ongoing challenges presented by the COVID-19 pandemic.

We appreciate you choosing LAMPIRE as your scientific partner. It has been our pleasure to help you meet your custom project and/or biological raw material needs. We hope you have received the top-notch communication and technical support you have come to expect from our LAMPIRE sales, project management, service and technical support team members.

Although we have been able to hold many of our pricing steady during these changing economic times with continued cost increases, we are being forced into a price increase on standard catalog products beginning 11/2021.

Thank you again for your continued use of our high-quality products. We look forward to our partnership with you for many years to come. Please contact Customer Service at 215-795-2838 or [lampire@lampire.com](mailto:lampire@lampire.com), if you have any questions or concerns.

Thank you for choosing LAMPIRE.
