Your In Vivo
CRO LEADERS

ABATTOIR **BIOLOGICAL PRODUCTS**

Looking for abattoir-derived glands, tissues, organs, blood, and fluids? Look no further! LAMPIRE is a leading supplier, conveniently located in Pennsylvania, near top USDA-approved abattoir facilities for beef, veal, and porcine in the United States. Whether you need small research quantities or bulk supplies, LAMPIRE has you covered. From cutting-edge medical breakthroughs to academic discoveries, our varied collection sizes cater to your unique demands.

Why Choose LAMPIRE?

- **Expertise:** Our technicians meticulously procure and process products to meet your requirements, ensuring quality every time.
- **Tailored Solutions:** We offer customizable products and preparations for your research or production needs.
- **Accessible & Traceable:** With our location, we provide quick access to avian, bovine, porcine, and ovine-derived products, fully traceable to meet regulatory standards.
- **Cost-Effective:** Our products are now more affordable alternatives to donor material amidst increased regulations.
- **Global Reach:** We serve clients worldwide, facilitating international shipments, including to the EU.

Our Customer Service team is here to assist you. Contact us to learn more about our products and how LAMPIRE can support your scientific endeavors. (Call us: (215) 795-2838 or Email lampire@lampire.com)
